# Design your own mask.

- . Decorate your mask
- . Cut out masks and eye holes.
- . Get some string/ribbon and measure around your head and cut.
- . Attach each end of string/ribbon to back of mask with some sticky tape.

# Home-made Butterfly Feeder

## You will need:

- Plastic squeeze bottle with lid (a sauce bottle would be a good example)
- Water
- Sugar
- String
- Cotton ball
- Rubber bands
- Paint
- Fake flowers/real flowers

Instructions on next page

# How to make your bird feeder:

1

Remove the lid from the squeeze bottle. Place the cotton ball inside the lid, and use a pencil or toothpick to push half of the cotton ball through the squeeze lid.

- The cotton ball will absorb some of the sugar water that will be inside the bottle, and allow the butterflies to drink it from outside the bottle.

2

Attach a rubber band to the opposite end of the squeeze bottle. Tie a piece of string to both sides of the rubber band to create a loop that can be hung on a tree limb.

- If the container is too heavy, you can use multiple rubber bands to reinforce the string.

3

Mix the water and sugar together until the sugar is completely dissolved. The mixture should be about 90% water and 10% sugar, depending on how much your bottle will hold. Fill the bottle halfway with the mixture, and reattach the lid with the cotton ball.

4

Decorate the outside of the bottle to be colorful and look like a flower. You may choose to paint the bottle, or attach fake or real flowers using glue or rubber bands.

5

Hang the feeder from a tree, and observe on sunny days for butterflies to enjoy the sugar water from the feeder.

HELLO SPRING

How quickly can you find number 1?

The number 1 has to be alone.

It can't be part of a double digit number.

# Making a Cereal Box Marble Run

Ever wondered what to do with those empty cereal boxes?

Follow these simple instructions to make a cereal box marble run.

## You will need:

- 2 cardboard cereal boxes
- glue
- sticky tape
- scissors
- marbles

1.

Start off with your empty cereal box. Tape the lid shut and then cut off the front panel (take care, scissors are sharp!). Make sure you leave a little ledge at the bottom. This will stop the marbles rolling out everywhere when they reach the end of the run.

2.

Then take the detached front panel and cut it into three strips. Bend them at the ends and cut a notch on one side for the marble to run through.

3.

Next, take a little extra cardboard from another cereal box and fold the end of it and tape it onto the bottom. The folded end makes the marble run tilt back a little bit so the marble goes down the holes and doesn't fall out of the box.

4.

Finally, tape the strips into the box and cut a little hole at the top to drop the marble through. Then go and find some marbles!

# Let's Go on a Scavenger Hunt!

Have a look for different things in your home.

Draw what you find!

Something red

Something blue

Something green

Something yellow

Something orange

Something black

Something white

Something pink

Something purple

# Frog Hopper Origami

Follow the visual instructions to create your frog.

REMEMBER: The smaller the piece of paper you start with is, the better your frog will hop.

Use these templates to make your frogs.  
Once you have made them a couple of times,  
you will be able to make them with any  
square piece of paper!

## Guess Who? LPPS Edition!

Draw a picture of a teacher you miss from school. Make sure you use lots of colour.

Take a picture and upload to Seesaw or OneNote so we can all have a guess!
